Canada: Canadians can purchase and possess live or dewat machine guns; **RCMP** permit required. The \$200.00 transfer tax is exempt.

FOR FURTHER INFORMATION ON STATE OR LOCAL LAWS GOVERNING MACHINE GUNS, I SUGGEST YOU CONTACT YOUR LOCAL OR REGIONAL OFFICE OF **BUREAU OF ALCOHOL, TOBACCO & FIREARMS, U. S. TREASURY DEPARTMENT, INTERNAL REVENUE SERVICE.** These people are the most qualified to give you expert advice in this respect. Most often, local law people are just not properly informed, or use biased personal opinions that are misleading or totally incorrect. **If in doubt,**

phone me, and I'll set you straight or tell you who to talk to that can.

Remember!! Your Federal AT&F Agent can be of great help. He is knowledgeable and usually friendly (but he may have a nagging wife or a bad tooth, too, so . . .) **You have nothing to fear by asking.** He is **not out to get you.** Just be friendly and courteous and explain your problem intelligently and you will find him cooperative and friendly too.

Next!! Your next best source of information is your lawyer. Have him **read** the law to you. At least make sure he researches the law. He can draw on all kinds of information. **JUST DON'T TAKE A QUICK OFF-THE-CUFF ANSWER IF IT IS NEGATIVE.**
