## AN INVITATION TO SERVE THE CAUSE OF FREEDOM

O people who fear God! O people who love liberty! O people who cherish truth! O people who are not afraid to speak out against evil, tyranny and oppression!

Come join us in good fellowship at a rally in support of the struggle for self-determination by the courageous people of Kashmir. This rally will be held on Sunday, June 3, 1990, 12:00-1:00 p.m. at McPherson Square, 15th and K Streets, N.W., Washington, D.C.

The rally is being sponsored by the Pak-American Kashmir Freedom Forum which is a non-sectarian, non-denomination organization under the direction of El-Sheikh Mubarak Ali Shah Gilani Al Hashmi. The goals of this coalition are to bring to an end the victimization of the people of Kashmir by the Indian government and to help them realize their rights to determine their own future.

For months, the Indian government and army has waged a brutal campaign of genocide and tyranny in Kashmir. Tens of thousands of unarmed citizens of Kashmir have been murdered and tortured by the Indian army and its gestapo security forces. Last week, one of Kashmir's most prominent religious leaders was brutally assassinated and his body was kidnapped by the Indian army. When the Kashmiri citizens came in masses to demand the return of his body that it might be given a proper funeral and burial, the Indian army opened fire on them without warning. This resulted in the massacre of over three hundred men, women and children, and thousands more injured.

The Pak-American Kashmir Freedom Forum is demanding that the United States government take a major role to intervene and halt the aggression and oppression of the Indian government against Kashmir. In addition, the United States must use its political influence in the United Nations to obtain the plebiscite guaranteed by U.N. resolution over forty years ago.

The causes of freedom and human rights are the causes of every man. We need your voice and support in this united effort to aid our brethren in Kashmir in their greatest hour of need.
