As you are aware, that by the Grace of ALLAH, almost the entire jama'at has moved on their own lands or are at the verge of moving and ALLAH has blessed us with many beautiful parcels of land on the east and west coasts.

I thank Almighty ALLAH for having enabled you to achieve this objective; though there are still a number of complications regarding land needed to<sup>be</sup> solved or resolved.

Alhamdulillah, by now you have emerged as a jama'at giving dawah to other countries. This summer we covered parts of Africa and, insha-ALLAH, S.E. Asia will also be covered. We shall be producing a lot of tabligh material in the form of video and audio cassettes, books and flyers which shall be made available to various countries. As you are aware, for the past five years, all the year around, Talibas and Talibs stay at the Lahore or Muree campuses and keep on doing their work. In this regard we have realized that we should have a Zawia with Q.O.U. premises at Muree, Paskitan where research, printing and publication of Islamic books, seminars at an international level, as well as production of audio and video materials shall be prepared.

We are acquiring a small piece of land at Muree and we shall need lots of money for construction. Finding the expense amount too much, I have decided to inform all the Talibs and Talibas that if they like to participate in constructing the Zawia and University premises they may do so during the course of one year, only i.e. from Sept. 1989 to Sept. 1990.

Those who shall donate generously in this project, we shall have their names engraved in the marble plaque and also they will be helping their Sheikh in this noble cause.

In this regard, for the next 12 months, whatever funds you can generate send directly to either of these two accounts through any Citibank in the U.S.A.
