

An Introduction To The Quranic Open University And International Dawah Centres

The Quranic Research and Educational Society was established in 1974, ^{it} that is an independent body with branches in many countries. Quranic Research and Educational Society is the parent body of the Quranic Open Universities at Lahore, New York, California, North Carolina, Detroit and Toronto.

It is headed by El Sheikh Ayed Mubarik Shah Gilani El Hashmi of Mian Mir Sharif, Lahore. The Quranic Research and Educational Society is the only Society which has demonstrated scientifically for eleven months at a research institute in Taif, Saudi Arabia, 1976-1977 where thirty-nine (on the record and hundreds off the record) patients suffering from schizophrenia, psychosis, seizures, neurosis were healed with a newly introduced methodology called 'El Gilani Methodology of Quranic Therapy'. A number of patients suffering from physical diseases were healed as well.

The Quranic Open Universities are the first organizations which made VCR films on Fiqah (Islamic Law) Hadith, Islamic Etiquettes, Principles of Tarrat, Quran Made Easy, Arabic

Language Courses and Islamic Cooking and for the past eight years thousands of people have benefited from the worldwide educational and Dawah Projects.

Seven years ago the Quranic Open Universities produced a translation of Holy Quran (Selections) by El Sheikh Gilani which has gained popularity all over the world, and have produced hundreds of audio cassettes virtually on every topic.

The Quranic Open Universities have established special diploma and degree courses in Quranic Sciences - Tafseer, Hadith, Law, Psychology, Psychiatry and Quranic Therapy.

The Quranic Open Universities also award Diplomas in Islamic History etc.

With the exception of some lectures, students receive lessons at home. Under the auspices of the Open Universities some students are sent abroad for higher studies in Islamic Law, Tafseer and psychiatric research.

During the year outdoor camps, retreats and seminars are held for young Muslims, both girls and boys.

Pg. 002

In the United States Quranic Open Universities are located at the addresses given in the Preface.

A major Research and Dawah Center of the Quranic Open University is functioning at Lahore, Pakistan and students from the United States and elsewhere go there to attend training courses and research projects. The specialization of our dawah programme is to launch vigorous tabligh and dawah campaigns in some Islamic countries where missionaries are converting thousands of Muslims - and Pakistan is the most affected where more than 20,000 Muslims were converted to Christianity by one group of missionaries. While in Africa 80% Africans have embraced Christianity.

The work of the Quranic Research and Educational Society and the Quranic Open Universities have borne fruit. From amongst those who have benefited from our projects and courses are those who have dedicated their lives to preaching & teaching El Islam throughout the world. Dawah Centers are being established in North Eastern Africa, the West coast of Africa and the Caribbean so as to teach and preach

...um to the masses.

Whereas in U.S.A. and Canada the dawah, educational and research projects are functioning successfully. The

Quranic Research and Educational Society, its Quranic Open Universities and Dawah Centers in many countries, is a non political, non sectarian, no profit organisation.

Scientist's research scholar's, intellectual's and philanthropist's help and cooperation is solicited.

El Sheikh Ayed Hubarik
Shah Gilani Hashmi.

The Quranic Research and Educational Society was established in 1974 for the propagation of Quranic Sciences and Guidance and to demonstrate the truth of Holy Quran scientifically and rationally and refute all baseless anti-Quranic propaganda by every possible means.

The Society established a chain of Open Universities in various parts of the world where diplomas and degrees in Quranic Sciences of Law, Hadith, Tafseer, are being awarded. The Quranic University of America with its branches are official bodies of the Quranic Research and Educational Society. The Muslims

Contd: Pg. 004

of the Americas Inc. will supervise the affairs of the University on behalf of the Quranic Research and Educational Society.

Aims And Objectives

- 1.) To propagate the truth of Holy Quran amongst scientific institutes, universities and hospitals of the world by furnishing them with results from QREI research.
- 2.) To open therapy centers in Pakistan and abroad for giving practical demonstrations of the healing properties of the Holy Quran thereby introducing and propagating Islam.
- 3.) To establish a model Quranic Therapy Hospital in Lahore and in other countries as well.
- 4.) To prepare Holy Quran translation, Islamic Law, Science of Hadith and Daw'ah on VCR and audio Cassettes.
- 5.) To sponsor courses in Islamic Studies, Arabic language, Quranic Therapy and Islamic Psychiatry under the auspices of the QOU and award diplomas and degrees.
- 6.) To prepare a team of Mubalighoon to give Daw'ah to non-muslims all ^{over} the world. ~~Lahore~~

~~in~~ ~~the~~ ~~other~~ ~~countries~~ ~~as~~ ~~well~~.

- 7.) To establish a Quranic Open University in Lahore, Islamabad, New York, California, England and other countries and carry out all the research, demonstrative and educational projects.
- 8.) To write papers on Astronomy, Socio-Economic, Political, Administrative and Ideological aspects of the Holy Quran supported by Sunnah and research.
- 9.) To promote Quranic Sciences by every possible means i.e. seminars, VCR, and audio cassettes books and journals.
- 10.) To award scholarships enabling interested individuals to complete their research and education.
- 11.) To publish a monthly magazine or journal, Spirit of Islam (Ruh-e-Islam) in Urdu and English.
- 12.) To prepare documentary films of QREI research and distribute these to various scientific institutes and Daw'ah Centers throughout the world.
- 13.) To organize character building through Akhlaq-i-Muhammadi (Salams and salawat be upon him).

Psychology of Beliefs Based Upon Materialism

The Church of Matter replaced the Church of Divinity of Man. Whereas the western people were wandering in darkness for the past seventeen centuries, the materialists came and replaced the Church of the vicars of Christ and installed themselves in its place. They too have their apostles such as Galileo, Darwin, and Freud.

If one were to investigate their so-called laws and theories, one would find that they contradict each other, the same way that if you believe in the account of John you had to refute that of Luke. Similarly, all the theories invented by the fathers of materialism are incompatible with each other.

Galileo placed the sun in the solar system, but he could not explain why the pole star, being fixed, is always seen in the north. No one of his disciples give plausible explanation that while the earth is orbiting around the sun, why the geostatic satellites always stay at a fixed place in relation to a fixed

government on the earth.

Similarly, there are many gaps and contradictions in the theory of Darwin.

Like Paul, Darwin wanted us to have blind belief in his hypothetical explanation that somewhere in a deep sea, somehow some elements got together and due to some chemical reaction, they became amoeba. One couldn't ask for an encore.

Freud, an established cocaine addict and pervert who suffered from seizures, was an atheist who viewed the world through his Jewish myopic eyes, which were more than tinted with the experiences of a bitter childhood, chronic night frights, and perversions. Paul denied the Almighty religiously, then Freud denied the soul scientifically, although he claimed to heal maladies of the psyche (the soul).

19.6

The materialists who deny the Almighty and His Immutable Laws, morality, and justice, waged a war against the organized social structure of society, and in turn gave people a lot of freedom to do whatever they liked. Whereas the priests of the Church of Pauline religion (now Christianity) destroyed law and introduced "Love", they claimed that all sins would be forgiven if the people went to them and ~~and~~ confessed.

III

Contd. Pg. 6

This device was created to control men and oppress them. However the priests could not mitigate the evil which accompanies forbidden acts such as intoxication, adultery, or murder, and when the Almighty punished them for their misdeeds, the priests burnt the "sinners" or ostracized them.

Therefore, perversion, masochism, adultery, intoxication, Satanism, albeit part of the society, and even some priests have acknowledged the right of the people to engage themselves in these heinous activities, in the name of "freedom" and "love".

The justification by authoritative figures of the society cannot and will never be able to remove the evil consequences of the major mental disorders, and crimes against the society are wages of sin.

The Almighty Allah is being denied religiously and materially since the time of Jesus Son of Mary. He has been denied by those who propound the theory of evolution, denying the Almighty's miraculous creation of our father, Adam. The Almighty is denied by those who claim Mary had a husband, & thus was born Jesus.

is denied by those scientists who claim the ~~un~~ universe came into existence accidentally, and by those who deny the Ten Commandments ~~of~~ or fail to uphold them, the first and foremost of which is "Hear ye, O Israel, The Lord God Is One" The fact is that all those who attribute divinity to any other than The Almighty are pagans, while those who deny Him on a "scientific" basis are of very inferior intelligence, less than that of animals, which indeed know their Creator, and glorify Him every morning and evening.

* I quote here an example of a Bedouin who went to Hazrat Ali (radiallah ^{anhu} ~~anhu~~, may Allah bless his countenance), and inquired of him
Pg. 7

regarding some proofs of existence of Almighty God - Allah. Hazrat Ali (the son-in-law and first cousin of the Holy Messenger) s.A.W. replied, "Suppose there was a very huge lake of blue water, and every day at a fixed time and from a fixed place a boat sailed from its eastern shore, thus reaching a fixed place on the western shore.

Will you then believe that the boat has no sailor?" The Bedouin replied, "No, of course not." Hazrat Ali continued, "Then look up into the blue sky and behold that every ~~moment~~ ^{morning} at a fixed time and place the Sun appears, and reaches its fixed destination

P. 7

at a fixed time. That is the boat of Allah, and Allah controls it." The Bedouin then fell down in prostration, saying, "I believe in Allah, I believe."

There is yet another story about a desert dweller (Bedouin), when someone inquired of him, "Do you believe in ^{the} Almighty?" He replied "Yes," because when I see camel droppings in the desert, I know that a camel has gone that way." By that he meant that when one beholds wonders of ^{the} Almighty Creation all around oneself, then one ought to acknowledge that there is indeed a Creator behind it all: an Intelligent, Wise, Just, Ever-Vigilant, Regulator of Affairs, Cherisher, Designer - The One and Only One, because each and every form and thing and entity follows a universal pattern, design and purpose.

Allah didn't give every one common sense!

If you examine the skeletons of a toad, rabbit, even birds, monkeys, and human beings, you will notice that all have one common basic design. By observing that in no time, using only common sense you will realize that there is only One Creator, Designer and Architect. Examine the structure of an atom and compare it to our own earth's solar system.

inevitably, you will discover the same design has been repeated. The logical conclusion such a discovery is to acknowledge that there is only one creating, living Genius, who has created everything from the tiniest atom to the cosmos and even beyond. If one applies common sense, one would arrive at one and the same conclusion:

" THAT THERE IS PERFECTION AND PURPOSE IN ALL WHAT THE ALMIGHTY HAS CREATED, AND TO ACKNOWLEDGE AND UNDERSTAND THIS IS THE PURPOSE OF EVERY MAN, AS WELL AS THE PURPOSE OF TRUE RELIGION--- TO INFORM EVERY INDIVIDUAL ABOUT THE ALMIGHTY CREATOR, HIS PURPOSE FOR CREATING, AND THE GOAL HE HAS ESTABLISHED FOR MANKIND." Pg. 8

Ironically, the materialists are prepared to believe that Mona Lisa's painting has a creator, but not that the painter himself was created (rather that man "evolved" from a monkey). The materialist is prepared to believe that his house was constructed by a builder, but not that the blue copied house (earth) has been built by a Master Architect. A materialist is prepared to believe that his watch was designed by someone, and he depends on it although it does not function perfectly in giving time, but he is not prepared to be-

Pg. 8

lieve that the Sun and Moon, ^{which} ~~with~~ regulate his entire world in time and movement, has been created by some Intelligent and Wise Creator.

I am writing these few words regarding the fallacy of beliefs and the Church and materialists because by believing in such irrational, unscientific dogmas a very peculiar type of mentality is developed, which is totally incapable of facing psychological or mental stress. For those who believe in these teachings, life becomes a burden, and meaningless.

Therefore, indulgence in intoxicants, be they drugs or alcohol, acts of perversion and adultery, only appear as straws on an endless sea of waywardness. These lost and depressed people cling to these in efforts to stay afloat, but only to find themselves being drawn deeper into a fathomless abyss of destruction.

Therefore, it is better to face the facts, acknowledge the existence of the one Almighty Creator, who is Just, Merciful, Ever-Living, Ever-Hearing, and He alone hears the supplication of every suppliant; The Creator who made everything to serve mankind, and created man

for himself, to serve as His viceroy.

Every true, believing man who follows the Almighty's Laws is His viceroy. He is neither begotten, nor begets. He is alone, and has no partners, and the doors of His Forgiveness are open to all

except those who attribute partners unto Him, as He has commanded "THY LORD IS ONE."

The sins of no one can transcend His Mercy and Forgiveness, as He has said so.

He is the Lord of Adam, Noah, Abraham, Moses, Jesus Son Mary, and of Muhammad, the Last of all His Messengers.

O reader, I am not giving you a sermon nor is this a religious book; rather, I have used simple language to allow you to reach a logical conclusion based solely upon common sense. If only man-kind suffering on account of false beliefs, be helped!

I can give hundreds of logical arguments which contradict the beliefs of the Church and the materialists, and last but not the least, I say that why should you believe in a god to whom there is attached so much controversy, myth and superstition? Why should you believe in materialism, which teaches

Pg. 8.

that your world is the result of an accident, you evolved from a monkey, and that every violation of moral and social values is permissible? When evil consequences of these acts begin to register upon your psychological, mental, and physical aspects, your priests and scientists are unable to help you.

It is a pity that the priesthood of the West has shown so much arrogance and ignorance that it is becoming more difficult to convince westerners of a very simple thing -- the falsehood has bent his mind in such a way that anything emanating from other cultures they view with suspicion, indifference or arrogance. The fact is that they, themselves, need help immediately.

* There are some individuals who know the remedies of some horrible mental and physical diseases, and they are forced to volunteer their expertise by virtue of their pangs of conscience. For one who knows the remedy of the ill of a dying person yet helps him not he is less than a beast. Similarly anyone who helps a person to destroy himself, urging him to sinful acts and violations of the Law of the Almighty, he is worse than a

To help, understand, and love one another is the major purpose of the Almighty in creating mankind. He is not just the God of Muslims, Christians and Jews, but He is the God Almighty, Allah of All. His Ten Commandments are of a universal set of laws which are the common heritage of the three major world religions, Judaism, Christianity and Islam.

The priests have broken their Law and now cannot save anyone from the consequences of evil ~~deed~~ deeds. One of the most heinous sins which can be committed is the act of a man going to a man, because in doing so he wastes the seed which the Almighty created to promulgate the very existence of Man, whom He created superior to all other beings.

When such a sin is committed, even the earth trembles with fear and a tremendous reaction is registered in all the worlds. It is a crime committed not only against the Almighty, but against mankind and society, and its perpetrator is immediately punished.

The Bible, although interpolated, contains the account of the dire consequences of homosexuality which was the fashion of the inhabitants of Sodom

Pg. 10

and Sodom. We also read in the Holy Quran how the entire city was destroyed, homes upturned, citizens pelted with stones thrown from the skies, until no one was spared save a few pious individuals who escaped beforehand. "Sodom" and "Gomorrah" are still recognized as cursed names in most of the languages of the world, but sadly, the practices of these accursed people are not condemned widely enough. The wrath of the same Almighty as befell those ancient sinners is falling upon perverts today in the shape of AIDS and major incurable mental disorders.

I state this categorically and with authority, because since 1400 years no practicing Muslim has ever suffered from mental diseases or AIDS. This is a fact which very few western researchers will be prepared to investigate, as most will not "want to believe in religion".

Pg. 12

Knowing Ones Ownself

More complicated, fathomless, and mysterious than the universe is Man, and his own being. The Muslim scientists of the soul, the true scientists,

know a great deal about the mysteries of man.

Pg. 13

O Reader, the knowledge about Man and his reality is vast, complex and mysterious.

Indeed, it is the noblest of all the sciences and thus can only be comprehended by the noblest of all mankind.

Ignorant, vulgar individuals who follow falsehood are not even allowed to know about the existence of this science! I have taken care to explain these details in very simple language for the benefit of seekers of Truth.

Here, I wish to mention in brevity those factors which cause the maximum amount of suffering to man, both physically and spiritually, although it will be very difficult to isolate this topic from "Ma'arifa of Allah" (Divine Knowledge of God) and Esoteric Sciences of Sufic Disciplines.

Man is composed of a physical and non-physical body and the physical body is a vehicle for the latter. The Almighty has created both, and has endowed them each with a system, by which both are regulated, kept alive and healthy.

The materialists and psychiatrists teach that we should all maintain perfect physical

Contd. Pg. 13

and mental health. They do not know that if a person manifests sharpness of wit, zest for life, and an urge to comprehend the mysteries of this world, then all these attributes are due to proper functioning of his inner sense faculties, emanating from the center of his soul. This center is known as the "Zalb", which corresponds with the center of the physical body, the heart.

Therefore, the heart in the physical body and "Zalb" in the soul are the two sources of good or bad health, both influencing ones conduct, as well. The human heart aids the five sense faculties and people do take every possible precaution to keep it healthy and strong. Yet the physical sense faculties in reality are only symptomatic, as they indicate the state of ones soul ("Ruh") and its center, the Zalb.

The Zalb is the energy input and output nucleus of the soul or "inner self" of Man.

The physical body of Man was created to follow a set of Laws, designed for its preservation and protection. They are

Pg. 14

physical laws, which we are all well aware of.

For instance, man feels ^{cold} and he must clad his physical body to ward off chill; when his

-~~very~~ ~~overcomes~~ fatigue, he must give it rest; since fire can burn the body, we keep away from it, etc. All of these precautions are derived from Laws.

Similarly, our non-physical bodies are subject to a Law made by their Creator.

Materialists neither believe in Almighty God, the human soul or the Law therefore they have been spreading falsehood, and increasing the miseries of mankind without being able to heal the diseases of the soul.

The 'Qalb' also has five non-physical sense faculties which correspond to the physical sense faculties which we all know as sight, hearing, speech, smell, and touch. The sense faculties of the Qalb are the following:

- 1.) inner vision
- 2.) commemoration
- 3.) contemplation
- 4.) criterion
- 5.) thinking and imagination

Just as blood is life for the heart and physical body, similarly correct belief is the life source of the Qalb. Any false belief acts as poison to the Qalb. Here I will narrate the impact of false beliefs upon the psychological aspect of a person. Some may ask, what is a false belief?

Could Pg. 14

* Any system of ideas which distracts or removes Man from his Creator is considered a "False belief". A belief which takes a person away from his Creator is false. And any doctrine, research, concept, or scientific achievement which enable man or a race to oppress another is most evil, and to believe in it is upholding a false belief.

Look at the photo of a teenaged Hindu bride who due to religious custom, was burnt along with her dead husband at his cremation. Although the practise of "Sati" (when a widow is burned on the funeral pyre with her husband) is a most heinous act, this young woman was psychologically prepared to accept

Pg. 15

??

Look at the photo of a teenaged Hindu bride who due to religious custom, was burnt along with her dead husband at his cremation. Although the practise of "Sati" (when a widow is burned on the funeral pyre with her husband) is a most heinous act, this young woman was psychologically prepared to accept that sati is normal and the duty of every widowed woman. Such was the consequence of her having held false belief in the Hindu religion.

Shirk is the lowest form of degradation and oppression devised by the priests, who keep humanity away from the One Almighty Creator in attempts to replace Almighty. The priests have incorporated many deities, which are to be approached or appeased through them.

Therefore the worst calamity to befall anyone is indulgence in polytheism and to practise it totally destroys one psychologically and forces him to take refuge with the priest or materialist, who are the real culprits and oppressors in this game.

Polytheism, known in Arabic as "shirk", is a major false belief, and the moment one believes in gods and deities other than the One Almighty, the Creator, his *Qalb* immediately starts to suffer from ~~blindness~~ blindness, which is the most devastating disease of the soul and the afflicted person cannot learn any lesson from Divine Revelation or seek guidance from the signs of the Almighty, which are all around us.

Similarly, he will not hear the truth, nor be able to differentiate between right and wrong, on account of damage done to his faculty of thinking and imagination, as well.

If polytheism is not uprooted from the soil of the soul, it will grow into a poisonous

Contd. Pg. 15

tree, whose bitter fruits and branches will destroy the polytheist, morally, psychologically and physically.

Hindus are all polytheists, as are those Christians who believe in the Divinity of Christ, or that God is three. The Jews do not uphold the Ten Commandments and they have made their greed their god, and hence their thirst for gold and power is unquenchable. In reality they worship gold and power and pay lip service to their god, this is also called shirk (polytheism).

GRADE

Through love of the world and its pleasures and denial of the (th) truth the falsehood of a polytheist is nourished. "Love of the world is the root cause of all evil." That is interpreted to

Pg. 16

mean love of the world is the cause of all the physical and non-physical diseases, because it will draw one AWAY from The Almighty & His Mercy.

Therefore, when any Lalb is plunged into total darkness of polytheism certain diseases are manifested in the conduct and psychological self of the afflicted person. These are known as "secondary causes", love for the world and polytheism being the "primary causes".

Therefore, all those who are apparently satisfied with their false beliefs shall not pay any heed to the guidance, wisdom, salvation, healing, and the very message contained in this small book.

Save from moral degradation and social degradation.

Acquired Immune Deficiency Syndrome

Like the materialists who attempt to heal diseases of the soul by treating the body, similarly ignorant physicians are attempting to cure AIDS. This is the crux of the dilemma of western culture.

It is not understood by them that unlike tuberculosis, polio, malaria, plague, small-pox, and cancer, which can affect a wide spectrum of individuals, regardless of their religion or beliefs, but AIDS has its root in the disbelief and misdeeds of the people.

reorienting Only by reorienting one's beliefs, understanding of one's purpose in life, knowing and adhering to the Law of the Almighty, and understanding the good and evil consequences of one's deeds, only then one can overcome AIDS and in fact any other major mental and physical incurable disease, for which the western researchers can find no complete or permanent cure.

Almighty God is Just and has not sent any affliction into the world without a cure and of course it also include AIDS.

As a Muslim, I don't foresee any gains for Islam in converting AIDS sufferers who are already destined to die. It will not bring any good name to Islam, nor the researcher.

Pg. 12

of ^{the} Almighty, and attach themselves to this commitment by reading His Book, concentrating upon His Name, and following discipline, and celebrate His commemoration known as "Zikr", they shall either be healed physically, or will behold irreputable signs of blessing of Allah, thereby receiving forgiveness and salvation and entrance into paradise of ever lasting bliss.

The

Almighty, the Most Compassionate and Merciful, will definitely bestow such a spiritual experience and uplifting that any patient who might not appear to receive any physical healing shall nevertheless find the burden upon his heart lifted, and begin to look keenly forward to entering the abode of eternal happiness. This is a promise for all who shall accept everything in letter and spirit, with love and conviction.

In conclusion, I state there is nothing binding upon me save to explain it clearly and openly, for the sake of Almighty God Allah and mankind.

Pg. 16

The Secondary Causes

The secondary cause of the diseases of the

...oteric heart of the non-physical body), are given briefly below. For further study, any interested person should view the series "London Lectures" on video cassettes available from Zuranic Open University.

All the sufis and messengers unanimously declare that the person who does not know the diseases of the *Qalb* and their remedies should not consider himself as a human being. Is it not then a pity that modern day pagans who deny all such knowledge call themselves psychiatrists?

1. Greed --- is an essential attribute for the lover of worldly power, wealth and luxury. A greedy person inevitably suffers from an inferiority complex. Sleeplessness and frequent bouts of frustration are the symptoms of this disease of the *Qalb*; it is like jaundice to the soul.

2. Anger --- High blood pressure, loss of appetite, weak nerves, intolerance, lack of patience and intelligence are the symptoms of this disorder.

3. Ignorance --- As a matter of fact, ignorance is the main disease which leads people to disbelieve in Allah. This disease destroys all intellect

Pg. 17

and knowledge. In reality ignorance itself is the root of all the diseases found in the non-physical ^{as} and well as physical self. What is ignorance? Deafness, dumbness and blindness of the Zalb, when Allah wants to punish someone then He takes away knowledge from him.

Propogation Of Ignorance

Your attention is invited to the following press statement dated 18th Sept. 1987 regarding a speech given by Pop John Paul to a gathering of homosexuals and AIDS victims.

God Loves You All, Said Pope To 50 AIDS Victims

San Francisco, Sept. 18: Pope John Paul II met here on Thursday with a group of 50 men suffering from the deadly AIDS disease, telling them that "God loves you all." The AIDS victims, mostly homosexual Catholics, including two priests, met the Pope in the 18th Century Mission Dolord Basilica, the oldest still intact building in the city. "God Loves You All, without distinction, without limit," the Pope said making the sign of the cross on the foreheads of

Contd. Pg. 18

He makes him utter contradictions and false statements in public, so that according to His Just Law everyone may come to know about the liars, who exploit Mankind in the name of Truth... which is God Almighty.

Anyone possessing "Dm", (true knowledge of The Almighty and His Laws) can never suffer from mental disease or AIDS, or any form of moral or social degradation.

To further elaborate, an AIDS patient suffers due to the ignorance of the priests (of all denominations) and the lies that they have preached to the people for centuries. So I put the

Pg. 19

blame on the shoulders of these messengers of darkness, ignorance and death. Even the Pope himself is not exempt from this category, as one will find upon examination of an article reprinted here for the reader's benefit.

How a so-called vicar of Almighty can tell a lie, and further mislead an already confused group of people. Does the Pope not remember that God himself sent His wrath upon the people of Lot who refused to mend their ways of perversity?

in towns Sodom and Gammorah where made infamous on account of this perversion, which is narrated accordingly in the Scriptures.

Therefore, if we must believe the account in the Old Testament regarding God's opinion of such perverses, then we must disbelieve the statement given by the Pope in San Francisco.

Certainly even a blind man can easily see that whenever and wherever it is convenient, the Church father, including the Pope himself, have altered the word and its interpretation to suit themselves.

Pg. 19

Pg. 19

A Message Of Hope And Salvation

I declare in the Name of Almighty God Allah, whose two basic attributes are Rahman (Most Merciful) and Raheem (Most Compassionate), that there is none worthy of worship save Him, that He is the Only One who can forgive sins and heal. He grants salvation to those who seek His Mercy and His Forgiveness. No man, angel or messenger can forgive sins.

Those who wish to find salvation will have to follow a discipline based upon the teachings of the Holy Messengers, from Abraham to Moses, Jesus, and the Last Messenger, Muhammad, peace be upon them all.

All those who are fully convinced with

Contd. Pg. 19

the message, Guidance and ^{Pg. 20}Salvation contained in this book must throw ^{Pg. 20}themselves wholeheartedly at the ^{The} mercy of Almighty. If they follow the discipline and my methodology which is based upon the following principles, then I promise in the name of The Almighty that:

1. you are your own priest
2. you shall be your own healer, and
3. through you, salvation and healing will reach you.

You can be cured of all ills, be they mental, moral, physical and also receive the blessing of The Almighty. By salvation I mean that you will become yourself aware that The Almighty has forgiven you and has decided to call you with honour and love into His Mercy. This, I can guarantee will not be a psychological 'state of mind' as the materialists preach, but you will receive visions with open eyes.

Love for the hereafter will automatically fill your heart and the earthly pleasures of this life will cease to have any significance.

Although some will not be physically healed of their afflictions, they will enter a world of eternal bliss, the Kingdom of The Almighty, while the rest will be intact physically

cured, as well. ^{**} An open invitation is hereby extended to seek true knowledge of the Almighty and to love and Be Loved By Him.

Ignorance Is More Deadly Than AIDS, and True Knowledge Is The Elixir of Life

The Holy Messenger Jesus son of Mary said, "I healed those born blind, the lepers and revived the dead, and was not tired of that. But ignorant fools tired me."

Pg. 21

For this very reason, I have narrowed down the topic to AIDS, and by now the reader must have realised that one is never left free to do what one always likes. Most likely you have tried to seek happiness from every possible activity and method but never really got in return true happiness.

^{**} Instead, the consequences of your vain quests have demanded that you pay dearly. Some of you may be nearly bankrupt, but we say Never Despair.

The time has come to realise that there is somebody high-up who has made certain immutable laws according to which an evil-doer will always suffer from the evil consequences of his sin.

Contd. Pg. 21

Know that unlike fevers, headaches, influenza, mild disorders and even cancer, neither AIDS, schizophrenia nor epilepsy are diseases with physical causes. That is why the doctors cannot stop them or give 100% cure. That is why the doctors cannot stop them or give 100% cure. Because these are the direct symptoms of one's deeds and are primarily caused by one's belief. No one can heal AIDS save Almighty Allah. The Healer.

For every physical disease, he has given a remedy, but for those "diseases" which occur as wrath of God due to a person's misdeeds there is different treatment.
