Your Excellency:

This is not the first time that we are approaching Your Excellency regarding an extremely grave situation, which if not looked into immediately can cause irrecoverable and immense damage to the security and solidarity of our homeland.

Your Excellency, at present we have to convey our interest and concern regarding your strategy being used in the Mideast. We appeal to you to use restraint instead of force in solving this crisis.

In this regard, an emergency meeting comprising more than twenty prominent Muslim leaders was held at the premises of the Qur'anic Open University, Islamburg, Hancock, New York. In this meeting, resolutions were adopted unanimously to save the United States and the world from being pushed into total destruction by the manipulation of an invisible hand.

The United States will not gain anything by occupying the Holy Lands of the Muslims. There is a categorical injunction in the Holy Quran that state no non-Muslims can enter the Holy Land of Arabia.

It is not just the Muslims, but the common man on the street, who recognizes and is quite vocal on how the zionists have skillfully set up the United States. They have, on the one hand, maneuvered our country to occupy the Muslim land, and on the other hand, they have set up Iraq to invade Kuwait.

Since a large number of us have served our country in Vietnam, we know that if war breaks out as a result of the most recent ultimatum given to Iraq and the January 15, 1991 deadline, it will come to a third world war, and the only party that will stand to benefit from this will be Israel. This will be the last war of a united American people.

We find it very difficult to understand why the entire American military machinery would be set in motion against Saddam Hussein and the Iraqi people because of the recent dispute (August 2, 1990). At the same time in Kashmir, the Indian government and the BSF are allowed to have their way, murdering and raping the unarmed people since December 1989 in a dispute that has continued for over forty years. We all certainly hope that petroleum is not our country's motivation for the upholding of justice.

We do not need Congressman Paul Findley, or Mr. Victor Ostrovsky, author of By Way of Deception, to tell us that Israel is not only our enemy, but is pushing the United States to carry out its evil plans in the Middle East.

It was resolved to send a deputation of prominent Muslim leaders from the United States to convey to Your Excellency our views, suggestions and plans for saving the world and the United States from disaster. It was also resolved to send a peace mission comprising prominent Muslim leaders, scholars and holy men from the United States, Africa, the Caribbean, Canada, Pakistan, and Malaysia to request the President of Iraq, Saddam Hussein, to use restraint and to enter into a peaceful dialogue.

We would be grateful if you would allow our deputation to call on you, as requested above. We will send our Washington, D.C. envoy to your office with this letter and a list of names and signatures of those who attended this meeting within the next few days.

Respectfully yours,

Khalifa Mohammad Atiq A. Shahid Qadri
