IN THE NAME OF ALLAH, THE RAHMAN, THE RAHEEM

AGREEMENT

I bear witness that there is no God save Allah, and Mohammed is His Messenger, millions of blessings be upon him, his progeny, and companions.

I, the undersigned, have been made fully aware that as a Muslim, I must enter into the fold of Islam by applying Holy Quranic Injunctions and Sunnah in letter and spirit, and that it is absolutely imperative that I enjoin good and forbid evil, as this is a duty ordained by Almighty Allah.

I testify that there is no one whom Almighty Allah has empowered or entrusted to alter, change, misinterpret, or mould Holy Quranic Injunctions.

I understand that I, alongwith my family members, reside in a neighborhood wherein acts of lewdness, gambling, intoxication, and other heinous crimes are openly committed each day and night, evils to which we are exposed.

I have been made aware of many Holy Quranic Injunctions, particularly in Suratul Nisaa, which clearly sets forth that it is obligatory for every Muslim to do Hijra from a place where major sins are committed openly:

"Lo! as for those whom angels take (in death) while they wrong themselves, (the angels) will ask: 'In what were ye engaged?' They will say, 'We were oppressed in the land (a non-Muslim country or place of sin).' (The angels will say:) 'But was not Allah's Earth vast, so that you might have done Hijra in it?' Such men, their refuge shall be Jahannam, an evil abode."

"Whosoever did Hijra for the Sake of Allah will find much refuge and abundance in the earth."

Suratul Nisaa 4:97,100

I understand that a parcel of land belonging to our Sheikh is being made available to some families where they will live and establish a model Muslim town. In the event I am selected to participate in this noble undertaking I agree to abide by the law and discipline of Jamaatul Fuqra. I hereby pledge that I shall live like a member of a large family, offering every possible sacrifice for the betterment of the family, and doing so as a part of my Bayya, for the sake of establishing an Islamic town.

Once on the land, I shall uphold all security measures and all laws, including those which may be enforced from time-to-time, as needs arise. I pledge to live as a joint family, sharing meals and accomodations with others. I agree to submit all welfare funds which I or my family members receive, or at the very least 75% thereof, and all food stamps, from which a common kitchen will be managed, and that from my earnings I will continue to pay my 10% dues.

I understand and hereby agree that eventually I will be required to stop receiving welfare and/or food stamps for my family, and I pledge that under normal circumstances

7-31-90  
\*

(in the absence of disease, etc.) I shall do my utmost to earn an honest living to support my family, as I have realised that I should not bring any disgrace to el Islam by living on the charity of the kuffar.

I understand that if my family has been permitted to receive welfare over the next few months, it is to be collected solely for the purpose of developing an Islamic town, (in the same manner in which the Jews have built up the state of Isreal with the welfare payments they have received). I, too, am willing to be used as a channel through which kuffar monies are contributed towards the building of an Islamic town, and other allied cities and/or programmes outside the continental United States, as well.

I understand that once admitted to reside (or even visit) the land, I shall be judged according to Islamic Law (Sharia) and held to account for my actions as if I were in an Islamic country, for on the land Hudood will be enforced in totality.

I also understand all what sacrifices new Muslims made while living amongst the kuffar at Mecca, and they observed constant Jihad against oppressors and wrongdoers, irrespective of the fact whether they were one or many. Those noble Muslims upheld the honour, glory, and spirit of Islam. Almighty Allah put them to test and trial, and they were purified through their enduring every imaginable form of persecution, and they willingly chose to do Hijra or become martyred rather than live like polytheists, liars, and debased adulterers!

I have before me the example of my true heritage, and

I shall never let down the Jamaat or my Sheikh.

I shall never use deceit or fraudulent means to earn a living.

I shall always hear and obey, and

whenever given the command, I shall readily fight for Allah's Sake.

I understand that I, alongwith my family members, reside in a neighborhood wherein acts of lewdness, gambling, intoxication, and other heinous crimes are openly committed each day and night, evils to which we are exposed.

I have been made aware of many Holy Quranic Injunctions, particularly in Suratul Nisaa, which clearly sets forth that it is obligatory for every Muslim to do Hijra from a place where major sins are committed openly:

"Lo! as for those whom angels take (in death) while they wrong themselves, (the angels) will ask: 'In what were ye engaged?' They will say, 'We were oppressed in the land (a non-Muslim country or place of sin).' (The angels will say:) 'But was not Allah's Earth vast, so that you might have done Hijra in it?' Such men, their refuge shall be Jahannam, an evil abode."

"Whosoever did Hijra for the Sake of Allah will find much refuge and abundance in the earth."

Suratul Nisaa 4:97,100

I understand that a parcel of land belonging to our Sheikh is being made available to some families where they will live and establish a model Muslim town. In the event I am selected to participate in this noble undertaking I agree to abide by the law and discipline of Jamaatul Fuqra. I hereby pledge that I shall live like a member of a large family, offering every possible sacrifice for the betterment of the family, and doing so as a part of my Bayya, for the sake of establishing an Islamic town.

Once on the land, I shall uphold all security measures and all laws, including those which may be enforced from time-to-time, as needs arise. I pledge to live as a joint family, sharing meals and accomodations with others. I agree to submit all welfare funds which I or my family members receive, or at the very least 75% thereof, and all food stamps, from which a common kitchen will be managed, and that from my earnings I will continue to pay my 10% dues.

I understand and hereby agree that eventually I will be required to stop receiving welfare and/or food stamps for my family, and I pledge that under normal circumstances

7-31-90

(in the absence of disease, etc.) I shall do my utmost to earn an honest living to support my family, as I have realised that I should not bring any disgrace to el Islam by living on the charity of the kuffar.

I understand that if my family has been permitted to receive welfare over the next few months, it is to be collected solely for the purpose of developing an Islamic town, (in the same manner in which the Jews have built up the state of Isreal with the welfare payments they have received). I, too, am willing to be used as a channel through which kuffar monies are contributed towards the building of an Islamic town, and other allied cities and/or programmes outside the continental United States, as well.

I understand that once admitted to reside (or even visit) the land, I shall be judged according to Islamic Law (Sharia) and held to account for my actions as if I were in an Islamic country, for on the land Hudood will be enforced in totality.

I also understand all what sacrifices new Muslims made while living amongst the kuffar at Mecca, and they observed constant Jihad against oppressors and wrongdoers, irrespective of the fact whether they were one or many. Those noble Muslims upheld the honour, glory, and spirit of Islam. Almighty Allah put them to test and trial, and they were purified through their enduring every imaginable form of persecution, and they willingly chose to do Hijra or become martyred rather than live like polytheists, liars, and debased adulterers!

I have before me the example of my true heritage, and

I shall never let down the Jamaat or my Sheikh.

I shall never use deceit or fraudulent means to earn a living.

I shall always hear and obey, and

whenever given the command, I shall readily fight for Allah's Sake.
