Re: Propane

"Assalaamu' alaikom wa Rahmatullah
wa Barakatuhu":

I can't emphasize enough the im-
portances of conserving the propane.
When it is no longer being used, it
must be turned off.

Cooking should be transferred to the
cabin until further notice.

I was hoping that
the mothers who did
receive candy would
have shared with the
children who weren't
here when the candy was
divided among those
who were here. If it is
a problem, I don't believe it
will be in the future.
